HILL MAY BE CALLED UPON.

For Personal Reasons He Does Not Approve of the Ex-Secretary's Nomination.

(Special to The Evening World.) SARATOGA, N. Y., Sept. 25.—All the talk is of Whitney this morning. The opular tide seems to have turned towards him. He is as much the favorite to-day as Judge Gaynor was vesterday There is not so much mention of Gayaccepted as an absolute refusal to run. His admirers, however, refuse to be lieve that he is out of the race. Senaor McCarty, of Brooklyn, Hugh Mc-Laughlin's representative, said at noon e-day that he did not construe the Jus tice's letter to be an absolute refusal

Again, the same thing is said of Hill. It is not without the bounds of possi-bilities that the Convention might force

the nomination on the Senator. It is a Guessing Match

This is the situation this morning. No man can tell with any degree of certainty who the nominee will be. It is a guessing match and not a sure thing for States soil before the Convention adon by to-morrow arrangements will unloubtedly be made to communicate with Mr. Whitney at the first possible mo-

Hill has his way, as pointed out in these despatches yesterday. Senator Hill is fearful that Mr. Whitney might overshadow him as a Presidential possibility. Discussing the Situation.

The regular New York and Kings morning to consider the situation. There is a tendency in Tammany and in Kings County towards Whitney, although Beither of them has committed itself to his candidacy. They are awaiting devel-

Of greater importance to them at the present mon.ent is the contest for their seats by the Grace Democracy from New York City, and the Shepardites from Brooklyn. The State Democracy met at its headquarters in the Grand Union Hotel at 8.30 o'clock, and appointed a committee, of which ex-Secretary Chas. S. Fairchild is Chairman, and Frederic R. Coudert and Wheeler R. Peckham are members, to present their case to the Committee on Contested Seats.

There is a possibility that the Brooklyn factions may come to an agreement and divide representation, but Tammany apparently does not want to harmonize with the opposition, and if Tammany has its way, the State Democracy will be shored. The latest slate is: Brooklyn. The State Democracy met at

Whitney for Governor; Frederick ook, of Rochester, or ex-Senator John Linson, of Kingston, for Lieutenant-overnor, and Justice Gaynor for Judge the Court of Appeals.

The friends of Mr. Gaynor have evicently recorded to the court of Appeals.

The friends of Mr. Gaynor have evidently made up their minds to give thim some place on the ticket. No starrantee goes with this slate. Slates are made and broken every minute to be dear the state of the friend variety to the situation.

The John Boyd Thacher boom has covered in the upper story of the house occupied by Mrs. A. A. Williams. The lower floor is used as the Post-Office and general store.

It was reported that Congressman W. Hourke Cockran would place Mr. Whitshey in nomination if he will be the candidate.

Nothing tangible or definite can be learned about the nomination for Judge of the Court of Appeals. That, like everything else, is very much in doubt. The novelty of the situation is greatly elsewing the post-Office. Mrs. Williams loses everything else, is very much in doubt. The novelty of the situation is greatly elsewing the building, saved his stock, but lost most of his household goods. His building was ruined by fire and water. The top of a drug store was badly damaged. Nearly all the loss, about the orders of the bosses.

Yet the older heads cannot be convinced that the boness have really taken off the fire is unknown.

Owing to the lack of an organized fire department the flames were not checked. Volunteer fire department of the bridle and siven their followers after the didner of the fire is unknown.

They suspect that Senator Hill is playing a very shrewd game of politics. They think there may be a hidden purpose in the withdrawal of Gov. Flower and the retirement of Senator Murphy as Chairman of the State Committee. The object may have been to lead the people to believe that the machine has relinquished its hold, and thus try to allay opposition. These men think, however, that Murphy will continue to pose as the nominal leader, giving his orders the same as usual.

Hill will continue to be the chief controlling spirit, and that it will be the same old machine under a new name. If the people of New York want a coroner, a police justice, an alderman to perform a marriage or have business with a head of the department, they must come up here to find them.

WASHINGTON, Sept. 25.—The President to-day appointed Gen. William Ward Duffield, of Detroit, Mich., Super hink if the nomination were tendered intendent of the Coast and Geodetic Survey, to succeed Prof. T. C. Menden-hall, resigned. The position is worth

S6,000 per annum.

Gen. Duffield has a distinguished record in civil and military life. He was resident engineer of the Hudson River Raliroad in the '50's, and, after service in the late war, was appointed chief engineer of that road. He built the line of the Grand Trunk, between Detroit and Port Huron, and was connected with other important land and raliroad surveys, including the survey of the Colorado lands, in 1871 and 1872.

While still a boy he served in the Mexican war, and was wounded at Cerre Gordo, and again at Contreras, when acting Adjutant on Gen. Gideon J. Pillow's staff. In the late war he went out as Lieutenant-Colonel of the Fourth Michigan Infantry, and was in the first battle of Buil Run. Afterwards he was made Colonel of the Ninth Infantry. He served under Gen. Sherman in the West, and was made commander of the Twenty-third Brigade, by Gen. Buell, of the Army of the Cumberland, and was made Brigadler-General and President of the Examining Board, under the act of Congress of May 2, 1862, to test the efficiency of volunteer officers. He was breveted Major-General by President Lincoln, for galantry in the field in the Battle of Murfreesboro. He has held but one political office—that of member of the Upper House of the Legislature of the State of Michigan.

James said he would never go on the stage. "I have," said he, "no merit in that line, and no sort of practice would make me an actor. I have had opportunities to go before the footlights. Immediately after my acquital and vindication I was offered \$25.000 a year by a New York company, but I declined it. In the future my home will be in St. Louis. I am tired of roaming around. I shall try to find my son a place in a commercial house, and we will live together."

Charges Against Corrigan.

Pepe an Answer to Them.

The Priest Defends Himself in Connection with the Accusations.

The reproduction in this morning's World of the charges preferred against Archbishop Corrigan to the Pope has pened up in Catholic circles in New York and elsewhere an interesting topic of conversation.

In these charges are given what pur ports to be proof of the alleged hostility of the Archbishop to the Papal repre-sentative by direct allegation , inference, suggestion and connivance on the part of His Grace with others, laymen and clerics high in orders, whose assistance, it is alleged, was obtained for the sole purpose of discrediting the Apostolic delegate here and cause him to abandon

In this connection there is mentioned mong others the Rev. Dr. Henry Brann, pastor of St. Agnes Church on Fortywho is accused of endeavoring to create the impression that the Pope had rebuked Mgr. Satolli. The specific charge

buked Mgr. Satolli. The specific charge is as follows:

The most conspicuos example of this mode of acting could be found in an issue of the Catholic Heraid of July in a dialogue written by one Judge Dunne, wherein it was said that the letter of the Holy Pather did not approve the scholastic propositions of Mgr. Satolli, but that it was thought necessary to indulgs in eulogies of the personal character of the Delegate, and to praise his virtue, in order to re-stabilish his reputation, which had been injureed by his friendship with his liberal Catholics (Mgr. Ireland, &c.).

I shall say I am simply expressing my own opinion, and am not speaking for any one else.

"From all I know, I don't believe there is one syllable of truth in all of these charges. In fact, they are so triing and so small and ill-founded and so devoid of truth that I believe that the Holy Father will cast them in the waste baske when they reach his hand. "There is a maxim curren in the Church, 'de minimis non curat practor.' The Pope certainly is above all such petty things. The well-known devotion of Archbishop Corrigan to the Holy see is an answer in itself to these charges. "The truth of the matter is that there is not a Bishop in the United States, or in any part of the world, who is more intensely devoted to the Holy See than Archbishop Corrigan. When other Bishops have wavered on the question of the temporal power of the Holy See Archbishop Corrigan has always been firm in defending the right of the Pope to temporal power.

firm in defending the right of the Pope to temporal power.

"On the school question, while others have minimized and shuffled and attempted compromise, Archbishop Corrigan has been true to the principle and the logic of the Catholic theory of education. The proof that the Archbishop was right is that Rome's final decision in the question was in favor of that view which Archbishop Corrigan held on the school question; for the final decision of Rome was that the decrees of the Council of Faltimore on the dupational ques-
